I support the supreme court proposed rule 1.15A entitled, "Trust Account Overdraft Notification." In my 1996 law review article, How the Michigan Supreme Court Can Better Protect the Public From Bad Lawyers: The Ball Is In Their Court," on pp. 697-701, I argue for the adoption of this type of rule and incorporate my argument therein into my comments. In fact, when I chaired the Michigan Attorney Grievance Commission in 1985-86, the Commission proposed this type of rule to the Michigan Supreme Court as a needed protection for the public on otherwise unregulated trust accounts. So I am on record for the past 23 years in support of this needed rule.

Larry Dubin, Professor of Law, University of Detroit Mercy School of Law
